# TRADING MARKET OVERVIEW

Forex is the world's largest financial market, reaching \$9.6 trillion in daily trading volume in April 2025, driven by global currency exchange, high liquidity, and continuous market activity.

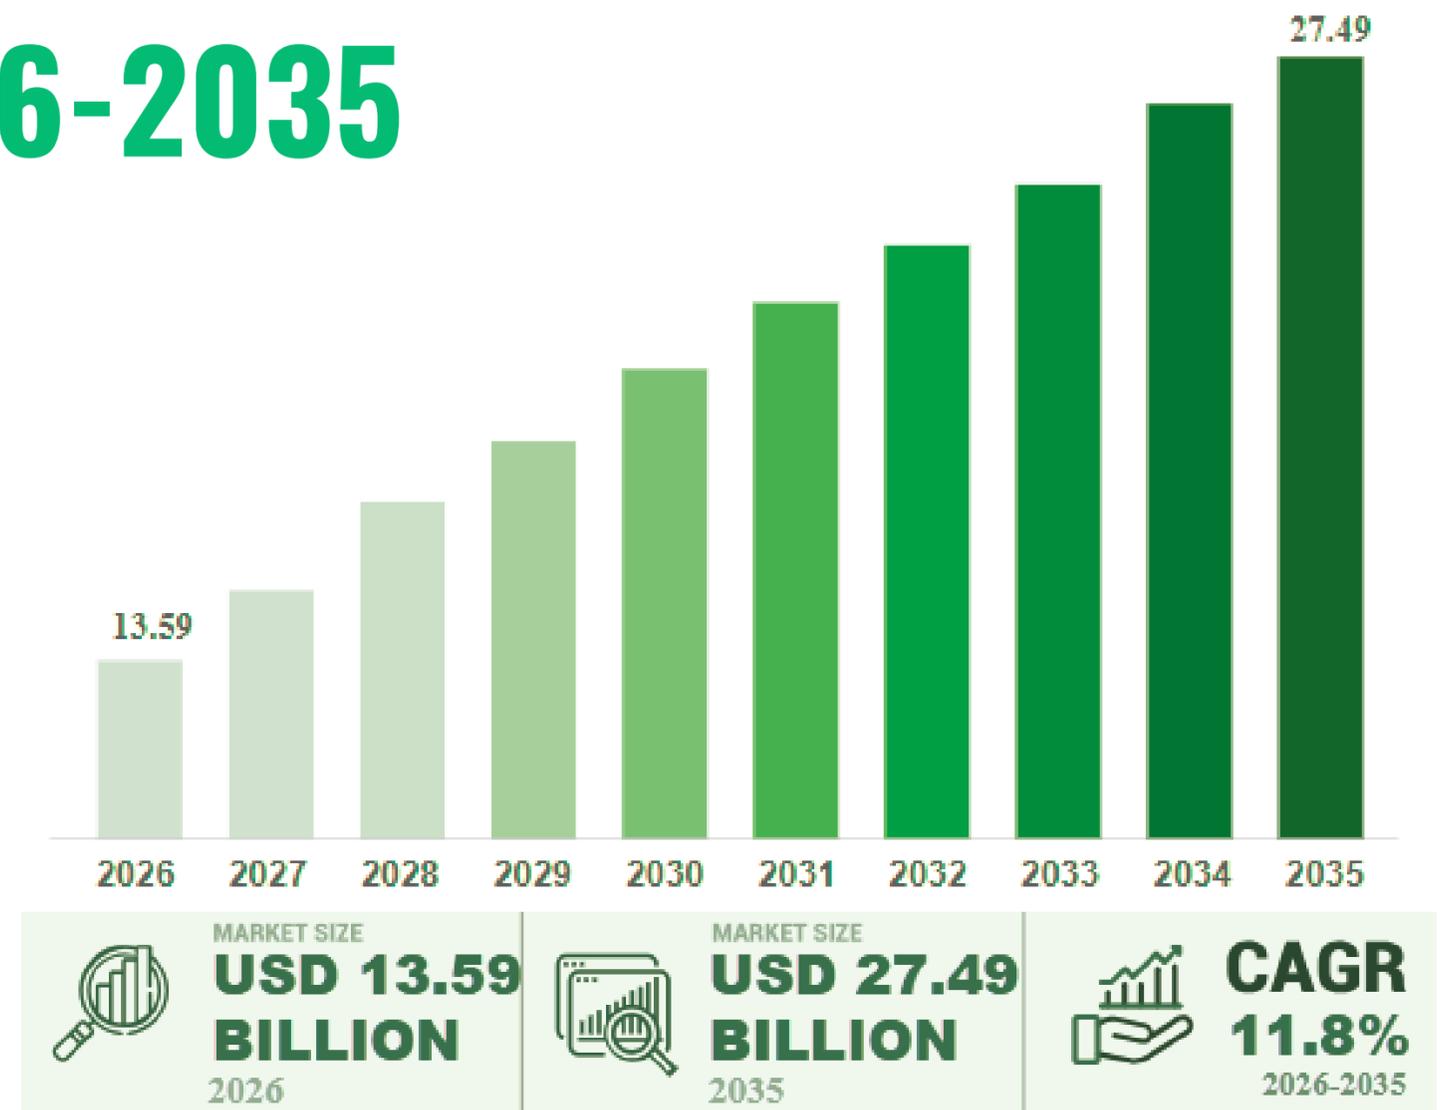

The cryptocurrency market continues to expand rapidly, recording an estimated \$265.77 billion in trading volume within the last 24 hours, fueled by blockchain innovation and growing global participation.

Together, Forex and Crypto markets offer round-the-clock trading opportunities, powered by advanced technology, real-time data, and increasing accessibility for traders across global financial ecosystems.

## GLOBAL TRADING MARKET GROWTH DURING THE FORECAST PERIOD 2026-2035

- Market valued at USD 13.59B in 2026, projected to reach USD 27.49B by 2035, growing at a CAGR of 11.8%.
- Around 60% of U.S. equity trades involve high-frequency trading, showing strong market influence.
- Key challenges include regulatory scrutiny, compliance costs, and high infrastructure demands.
- AI and machine learning are enhancing predictive trading algorithms.
- North America led with 32.3% share in 2024; firms like Citadel, Two Sigma, Virtu, and HRT dominate.
